21 September 2026

NOTICE OF PROPOSED AMENDMENTS

Robinhood Assets (Jersey) Limited

(a private limited company incorporated in Jersey, with registered number 162428)
LEI: 984500ADFHQZ9D6B9A29

Tokenised Products Programme

This notice (hereafter, this "Notice") relates to each Series of Products listed in the Schedule hereto (each, a "Series") issued by the Issuer pursuant to its Tokenised Products Programme for the issue of tokenised securities (the "Programme"). Reference is made to the terms and conditions of each Series as set out in the Base Prospectus dated 25 June 2026 (the "Base Prospectus") relating to the Programme, as completed by the Final Terms relating to each Series (in respect of each Series, the "Terms and Conditions"). Terms used in this Notice and not otherwise defined shall have the meaning given to them in the Terms and Conditions.

Proposed modifications

The Issuer proposes to introduce an instantaneous settlement mechanism ("**Atomic Settlement**") to the Programme, which can be used when issuing new Products under each Series of Products, as an alternative to the existing settlement processes under the Programme.

To facilitate Atomic Settlement, the Issuer proposes to permit Global Dollar stablecoin (commonly known as USDG) ("**USDG**") to be used as Collateral for each Series of Products, on a temporary short-term basis, which the Issuer expects will be limited to an intraday period, pending full and final settlement of the Underlying into the applicable Custody Account. In connection with the implementation of Atomic Settlement, the Issuer plans to (i) amend and/or supplement the Terms and Conditions relating to each existing Series of Products, to reflect the items set out further below; (ii) appoint Bitstamp Global Ltd. ("**Bitstamp**") as a new custodian under the Programme, to hold the USDG as Collateral on the Issuer's behalf; and (iii) grant security in respect of the Issuer's rights to the USDG in favour of the Security Agent (acting as direct representative on behalf of the Investors and the other Secured Creditors), to secure the Secured Obligations of the Issuer in relation to each Series of Products. The aforementioned Atomic Settlement amendments are expected to apply to all future series of products issued under the Programme, in addition to each existing Series of Products. As noted in "Conditionality" further below, the aforementioned proposed changes are subject to the Issuer securing any relevant regulatory approvals or notifications.

The amendments and/or supplements to the Terms and Conditions relating to each Series of Products will be made in accordance with Condition 34.1 (*Modifications of the Terms and Conditions and Final Terms*), without the consent of Investors of each Series. Such amendments and/or supplements are expected to adjust the provisions relating to:

- The issuance, redemption and settlement of the Products, to reflect the new settlement flows and the use of USDG as Collateral.

- The collateral and custody arrangements, to reflect that the USDG will be held as Collateral by Bitstamp as custodian on behalf of the Issuer.

- The security arrangements, to reflect the new security the Issuer will grant in respect of its rights to the USDG held by Bitstamp in favour of the Security Agent (acting as direct representative on behalf of the Investors and the other Secured Creditors).

together, the "Terms and Conditions Proposed Amendments".

In accordance with Condition 34.1 (*Modifications of the Terms and Conditions and Final Terms*), the Issuer may also amend or supplement the Final Terms for some or all Series of Products without the consent of Investors of each Series to make consequential adjustments to account for the Terms and Conditions Proposed Amendments (the "Final Terms Proposed Amendments"). The Terms and Conditions Proposed Amendments and the Final Terms Proposed Amendments are collectively referred to herein as the "Proposed Amendments". The Issuer may alter or supplement the Proposed Amendments described in this Notice before the publication of the Supplement and the Final Terms Proposed Amendments Effective Date (each as defined further below) as it deems necessary or appropriate, without publishing a further notice to Investors.

Investors should additionally note that the Issuer may amend or supplement the Base Prospectus to make further revisions which do not constitute amendments to the Terms and Conditions or the Final Terms for any Series and therefore do not fall within Condition 34.1 (*Modifications of the Terms and Conditions and Final Terms*) or form part of the Proposed Amendments described in this Notice. Any such amendments and/or supplements shall be set out in and implemented by way of a supplement or update to the Base Prospectus (a "Supplement").

Notice to Investors

This Notice has been published on the Issuer Website on 21 September 2026 and shall constitute prior written notice to Investors of the details of the Proposed Amendments for the purposes of Condition 34.4 (*Modifications of the Terms and Conditions and Final Terms*).

The specific changes that will comprise the Terms and Conditions Proposed Amendments shall be set out in and implemented in the Supplement approved by the FMA, as competent authority under the Prospectus Regulation. Accordingly, the Terms and Conditions Proposed Amendments shall be deemed to be effective from, and including, the date on which the Issuer publishes the FMA approved Supplement on the Issuer Website (the "Terms and Conditions Proposed Amendments Effective Date") and shall be deemed to be accepted by Investors of each Series who hold Products as of such date. For the avoidance of doubt, the Terms and Conditions Proposed Amendments Effective Date shall be no less than thirty (30) Calendar Days after the date of the publication of this Notice.

The specific changes that will comprise the Final Terms Proposed Amendments, if any, are expected to be set out in and implemented by way of amended and restated Final Terms (the "Amended and Restated Final Terms"). Accordingly, the Final Terms Proposed Amendments shall be deemed to be effective from, and including, the date on which the Issuer publishes the Amended and Restated Final Terms on the Issuer Website (the "Final Terms Proposed Amendments Effective Date"), which is expected to occur on or after the Terms and Conditions Proposed Amendments Effective Date, and shall be deemed to be accepted by Investors of each Series who hold Products as of such date. The Issuer intends to publish a subsequent notice to the Investors of each Series on or around the Final Terms Proposed Amendments Effective Date, which will confirm that the Final Terms Proposed Amendments to each Series have been made.

Investors that purchase Products during the period between the publication of this Notice and the Terms and Conditions Proposed Amendments Effective Date or the Final Terms Proposed Amendment Effective Date (as applicable) are deemed to have read and understood its contents.

The Issuer hereby confirms that it has determined that Investors in each Series will not incur any significant financial loss as a consequence of the Proposed Amendments, as required by Condition 34.1 (*Modifications of the Terms and Conditions and Final Terms*).

Conditionality

The implementation of the Proposed Amendments is conditional on the Issuer securing or making any relevant regulatory approvals or notifications, including, without limitation, the FMA's approval of the Supplement and any required JFSC approvals or notifications in respect of the Proposed Amendments. The Issuer reserves the right to implement some or all of the Proposed Amendments in respect of one or more Series or, as applicable, all Series, on the relevant Terms and Conditions Proposed Amendments Effective Date and/or the relevant Final Terms Proposed Amendments Effective Date (as applicable). Nothing in this Notice shall oblige the Issuer to implement any of the Proposed Amendments, and the Issuer does not guarantee that the Proposed Amendments will be implemented, in whole or in part, on any effective date or at all.

This Notice is given by the Issuer.
