

RHSG - Business Continuity Plan Summary

Overview

Robinhood Singapore Pte. Ltd. ("RHSG," "we," "our," "us") maintains a Business Continuity Plan to guide our response to events that may significantly disrupt our business. Since the timing, nature, and impact of disasters and disruptions are unpredictable, it is important for us to be flexible in responding to actual events as they occur. With that in mind, this document outlines our approach to business continuity planning in response to such disruptive scenarios.

While RHSG has been thoughtful in developing response plans that address a number of different disruption scenarios, it is important to understand that no amount of business continuity planning can eliminate disruption risks completely. RHSG periodically assesses the effectiveness of its business continuity plans in order to improve these plans and our underlying systems and processes in order to minimise the impact of disruptions to our customers.

Contacting Us

RHSG may communicate the existence of a significant business disruption through various means. Information related to disruptive events are communicated through Robinhood's social media account (e.g., X - [@AskRobinhood](#)), through our platform (apps & website), or via email. You can also contact us through our website or the mobile application for further guidance.

Our Business Continuity Design

Our business continuity plan is designed to enable an immediate response to various types of significant business disruptions. It also details how critical business operations should be recovered in the event of a disruption. In short, our plan is designed to ensure that we can provide our products and services with as little disruption to customers as possible, that your assets remain secure and accessible, and that you are able to reach us, regardless of the nature and scope of the business interruption.

Given our reliance on technology to support our operations, our business continuity plan also addresses the recovery of certain critical technology systems.

While every disruptive situation poses unique concerns, we seek to restore our operations in order to complete existing transactions and accept new orders and payments as quickly as practicable. Do note that your orders and requests for funds and securities may be delayed during this period.

Varying Disruptions

Significant business disruptions can vary in their scope, and may impact only a single building, business district, or region where some of our critical operations are located. In the event of a localised disruption (for example - a single office location), we will transfer impacted critical operations to another site. In the event of a more widespread disruption, we intend to shift to remote operations or continue operations from outside the affected area. In either situation, we plan to recover and resume business as quickly as possible, and will maintain communication with you regarding the existence and impact of the disruption and inform you when the platform returns to normal operations. If the significant business

disruption is so severe that it prevents us from continuing to conduct business, we will take all necessary steps to assure prompt access to your funds and securities.

Robinhood Singapore Pte. Ltd. ("RHSG") (Reg.
