### **Risk Disclosure**

All investments involve risks, including the loss of principal. The past performance of a security or financial product does not guarantee future results or returns. Keep in mind that while diversification may help spread risk it does not assure a profit, or protect against loss. Customers should consider their investment objectives and risks carefully before investing. The price of a given security or asset may increase or decrease based on market conditions and customers may lose money, including their original investment.

**Options trading entails significant risk** and is not appropriate for all customers. US brokerage

customers must read and understand the [Characteristics and Risks of Standardized Options](#) before engaging in any options trading strategies. Options transactions are often complex and may involve the potential of losing the entire investment in a relatively short period of time. Certain complex options strategies carry additional risk, including the potential for losses that may exceed the original investment amount.
